

Formcase[®]
a German brand.

ABOUT US

Formcase is a German premium manufacturer of mobile storage and charging solutions. Founded in 2015 in Nattheim (Germany), the Formcase brand is one of the leaders in the "Mobile IT" and "Education" sector.

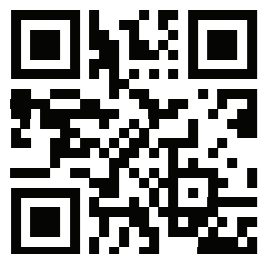

The ISO 9001:2015 certified company also specializes in the development and manufacture of individual and tailor-made solutions in the industrial sector.

WHY FORMCASE

Formcase charging systems provide a safe environment for students and teachers to charge their digital devices such as iPads, tablets and laptops.

Our TransformerCases are designed to serve their purpose for an entire generation of students. Our product name says it all! Even years later, we can adapt our TransformerCases to a new purpose, be it by replacing the electronics with more powerful ones or by converting the system from an active system (with Smart Hubs) to a passive system (with sockets).

INDIVIDUALITY

You tell us which and how many devices you want to use. We customize your individual foam as per your wishes without additional charges.

QUALITY

All Formcase products are tested for 24 hours before delivery to secure a high quality product. Formcase is using only premium materials to secure a huge customer satisfaction.

SERVICE

Customer service is most important for Formcase. In Case of any problems please do not hesitate to contact our support team at any time.

TRANSFORMER CASE SERIES

Home of the strongest charging cases/trolleys

TRANSFORMER CASE HIGHLIGHTS

Technology that inspires

Formcase offers a wide range of different mobile trolleys. Choose between a "Sync & Charge" or a "Charge Only" case. If you are using a MDM (Mobile Device Management) via WIFI, the "Charge Only" version is the correct product. If you want to synchronize manually with the Apple Configurator, our "Synch & Charge" version will fit perfectly. Just connect your Apple computer with the Trolley's Master USB-Port.

Mobile charging trolleys

All Formcase charging trolleys come with an integrated trolley system which makes it easy to move on any surface. It has an extendable and replaceable handle with a built-in fuse. Two side handles and one handle on either the front or the top (depending on the model) allow you to carry the charging trolley over stairs.

Wheels & Cooling

2 wheels (built-in) and an integrated bottom slide system allow you to easily move the trolley through the school building. All wheels are protected from damage.

The integrated active ventilation system (max. noise emission 31 dBA, ventilation power: 39m/h) secures and protects the devices from overheating.

Cable management

As a premium high quality company we found a way how to use the original cables which are coming with the device. No need for short cables anymore. In order to avoid cable clutters you can just store the excess lengths of the cables in the designated area and fix it on the metal with a rubber.

Lockable trolleys/carts

All our trolleys are lockable with a regular standard combination or key padlock. This function protects the devices from being stolen. We optionally offer ABUS combination padlocks.

Charge Only! (Via sockets/outlets)

For tablets and laptops, that cannot be charged with 12W/20W but can only be charged with original power adapters

TransformerCase Advantages

Ventilation
Integrated Fan System

Charge management
Optionally available

Compatibility
For Tablets 11" or Laptops

Charging
By original power adapters

Safe Transport
Extremely robust outer shell

Lockable
Padlock

Stable
Highest quality materials

Hardware protection
Rubberized smooth running rollers

Production
Manufacture in Germany

TransformerCase T16CX

- for up to 16 devices -

- Integrated power outlets / sockets for devices with up to 230V
- Charge for up to 16 devices simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- All handles are recessed and thus protected from damage
- Two wheels (built-in) with underbody slide system
- Active ventilation system (max. noise level 31dBA, air capacity: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

TransformerCase MLX Series

- for up to 20 devices -

- Integrated power outlets (1x 10-way, 2x 8-way or 2x 10-way) for devices with 230V power supplies
- Charge Only! For up to 20 devices simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air performance: 39m³ / h)
- Labeling possibility for individual marking of the cases
- Foam completely customizable and replaceable at any time

TransformerCase T24LX

- for up to 24 devices -

- Integrated power sockets (2x 12-way) for devices with 230V power supplies
- Charge Only! For up to 24 devices simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- All handles are recessed and thus protected from damage
- Two castors (built in) with underbody slide system
- Active ventilation system (max. noise level 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

Charge Only! (Via USB-A or -C)

For tablets, that can be charged with USB (max. 12W/20W) and/or are managed via WIFI with a MDM-System (Mobile Device Management)

TransformerCase T10C

- for up to 10 tablets -

- Intelligent USB charging electronics with automatic charging switch-off
- Charge Only! For 10 tablets simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two handles (one side handle and one front handle)
- All handles are recessed and thus protected from damage
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

TransformerCase T16C Pro

- for up to 16 tablets -

- Integrated LED charging status display for each USB port
- Intelligent USB charging electronics with automatic charging switch-off
- Charge Only! for 16 tablets simultaneously (even when closed)
- trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

TransformerCase T20MC

- for up to 20 tablets -

- Integrated LED charging status display for each USB port
- Extra space for additional accessories such as Macbook etc
- Intelligent USB charging electronics with automatic charging switch-off
- Charge Only! for 20 tablets simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air capacity: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

Sync & Charge! (Via USB-A or -C)

For Apple iPads, which are manually synchronized with the Apple Configurator

TransformerCase T16M Pro

- for up to 16 tablets + extra space -

- Integrated LED charging status display for each USB port
- Extra space for additional accessories such as Macbook etc
- Intelligent USB charging electronics with automatic charging switch-off
- Sync & Charge for 16 tablets simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

Formcase USB-Charging Stations

Formcase Charging Stations are made of high quality materials. Charge Only! or Sync & Charge! You choose!

TransformerHub H10

- Sync & Charge for 10 devices (12W) -

- Intelligent USB charging electronic with autom. charging cut-off
- Charge Only! For 10 devices simultaneously
- Synchronization function with Apple Configurator
- Automatic smart charging
- Supports all devices that can be charged via USB (12W)

TransformerHub H16

- Sync & Charge for 16 devices (12W) -

- Intelligent USB charging electronic with autom. charging cut-off
- Integrated LED indicator for charging status
- Charge Only! For 16 devices simultaneously
- Synchronization function with Apple configurator (optional)
- Automatic smart charging
- Supports all devices that can be charged via USB (12W)

TransformerHub H20

- Charge Only for 20 iPads (12W) -

- Intelligent USB charging electronic with autom. charging cut-off
- Integrated LED indicator for charging status
- Charge Only! For 20 devices simultaneously
- Synchronization function with Apple configurator (optional)
- Automatic smart charging
- Supports all devices that can be charged via USB (12W)

TransformerHub PD16

- Fast charging for 16 devices (20W) -

- Intelligent USB charging electronic with autom. charging cut-off
- Integrated LED indicator for charging status
- Charge Only! For 16 devices simultaneously
- Synchronization function with Apple configurator (optional)
- Automatic smart charging
- Supports all USB-PD power delivery voltages from 5V to 12V (5V 4A/9V 2.1A /12V 1.7A) on Type-C ports and up to 20W per port
- "Fast Charging" for iPad 2021/2020/2019 "10.2 (7th/ 8th/ 9th generation)

TRANSFORMER CART SERIES

High Performance USB-C Solutions of Formcase. Our 20W performance solution is particularly suitable for tablets. The 60W solution is suitable for laptops.

TransformerCart T32PD Performance

- for up to 32 tablets (20W) + extra space -

- Integrated LED charging status display for each USB-C port
- Suitable for Microsoft Surface Go2 and iPad Air/Pro models
- "Fast Charging" for the iPad 2021/2020/2019 "10.2 (7th/ 8th/ 9th generation)
- Intelligent USB-C charging electronics with automatic charging switch-off (20W per port)
- Charge Only! for 32 tablets simultaneously (even when closed)
- Two handles on the side and one handle integrated in the front
- All handles are recessed and thus protected from damage
- Four smooth-running wheels with locking system
- Active ventilation system (max. noise level 31dBA, air flow: 39m³ / h)
- Completely lockable with integrated lock (key included)
- Supports all USB-PD power delivery voltages from 5V to 12V.(5V 4A/9V 2.1A /12V 1.7A) on Type-C ports and up to 20W per port

TransformerCart T36PD Perf. Plus

- for up to 36 Laptops with max. 15,6" -

- Integrated LED charging status display for each USB-C port
- Suitable for USB-chargeable laptops up to 15,6"
- Intelligent USB-C charging electronics with automatic charging switch-off (60W per port)
- Charge Only! for 36 laptops simultaneously (even when closed)
- Two handles on the side and one handle integrated in the front
- All handles are recessed and thus protected from damage
- Four smooth-running wheels with locking system
- Active ventilation system (max. noise level 31dBA, air flow: 39m³ / h)
- Completely lockable with integrated lock (key included)
- Supports all USB-PD power delivery voltage from 5V to 20V

TransformerCart T48 Pro

- For up to 48 tablets (20W) -

- Integrated LED charging status display for each USB-C port
- Suitable for Microsoft Surface Go2 and iPad Air/Pro models
- "Fast Charging" for the iPad 2021/2020/2019 "10.2 (7th/ 8th/ 9th generation)
- Intelligent USB-C charging electronics with automatic charging switch-off (20W per port)
- Charge Only! for 48 tablets simultaneously (even when closed)
- Two handles on the side and one handle integrated in the front
- All handles are recessed and thus protected from damage
- Four smooth-running wheels with locking system
- Active ventilation system (max. noise level 31dBA, air flow: 39m³ / h)
- Completely lockable with integrated lock (key included)
- Supports all USB-PD power delivery voltages from 5V to 12V.(5V 4A/9V 2.1A /12V 1.7A) on Type-C ports and up to 20W per port

TransformerCart T30 AC Version

- For up to 30 Laptops -

- Suitable for 30 laptops up to max. 15.6 inch
- 30 AC adapters Plugs (240-100V 16A(Max))
- Charge Only! for 30 laptops simultaneously (even when closed)
- Two handles on the side.
- All handles are recessed and thus protected from damage.
- Four smooth-running wheels with locking system
- Active ventilation system (max. noise level 31dBA, air flow: 39m³ / h)
- Completely lockable with integrated lock (key included)
- Dimensions per tablet including cover or keyboard cover - height 396 x width 268 x depth 23.3mm
- 4 smooth-running wheels for easy transport
- Integrated locking system (key included)

TransformerBox T16PD Performance

- For up to 16 tablets (20W) -

- Tablets with max. 11 inch that can be charged via USB
- Integrated LED charging status for each USB-C port
- Charge Only! for 16 devices simultaneously (even when closed)
- Suitable for USB-chargeable Laptops up to 12" (incl. protective cover)
- Supports all USB-PD Power Delivery voltages from 5V to 20V
- Intelligent USB-C charging electronics with automatic charging switch-off (20W per port)
- Active ventilation system (max. noise level 31dBA, air flow: 39m³ / h)
- Completely lockable with integrated lock (key included)
- Made of Polypropylene and fiberglass composite material
- 16 USB-C to USB-C Cables included.
- Integrated locking system (key included)

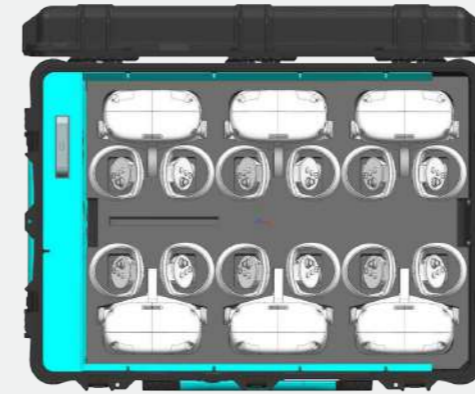

TransformerLocker L04-PD Perf. Plus

- For up to 4 Tablets/ Smart phones -

- Suitable for iPads / Tablets/ Smart phones / Headset / Power banks up to max. 11 inch
- Elastic 2-in-1 charging cable (USB C to USBC & Lightning PD cable).
- Delivery of power up to 30W
- Material made of Iron
- Easy Locking system
- Integrated LED charging status for each locker
- Customizable advertisement space
- 4 Locker bay with each can charge up to 2 device at once
- There is also an option available for 12 lockers.

TransformerCase VR Cases

TransformerCase T6VR USB-C

- for up to 06 VR -

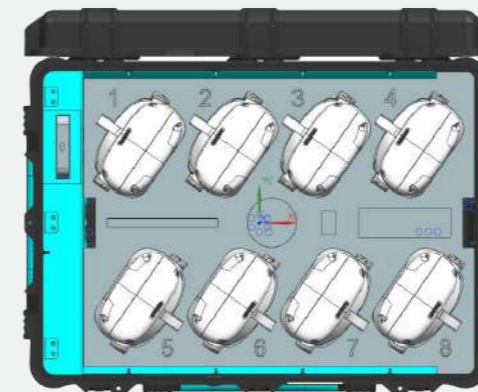

- Intelligent USB charging electronics with automatic charging switch-off
- Charge Only! For 6 devices simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

TransformerCase T4VR USB-C

- for up to 04 VR -

- Intelligent USB charging electronics with automatic charging switch-off
- Charge Only! For 4 devices simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time

TransformerCase T8VR USB-C

- for up to 08 VR -

- Intelligent USB charging electronics with automatic charging switch-off
- Charge Only! For 8 devices simultaneously (even when closed)
- Trolley system; extendable and replaceable handle with built-in safety device
- Two side handles and one handle integrated in the lid
- Two castors (built-in) with underbody slide system
- Active ventilation system (max. noise level: 31dBA, air flow: 39m³ / h)
- Labeling option for individual labeling of the case
- Foam completely customizable and replaceable at any time
